Objective

Highly motivated Cybersecurity student at Taibah University with a 4.66/5.00 GPA. Certified with CompTIA Security+ and passionate about proactive defense. Has a basic understanding of Python, Java, and risk assessment, with experience in building interactive security labs and simulating network attacks.

Education

Taibah University
Bachelor in Cybersecurity (GPA: 4.66 / 5.00)

Aug. 2022 – May 2027 (Expected)

Certifications

- CompTIA Security+ (SY0-701)

Projects

CyberRun: Interactive Cybersecurity Academy

- Developed an integrated learning platform with interactive 'War Room' labs for Incident Response training.
- Built tools for Password Strength Checking and URL Security Scanning.

Secure vs Risky Login: Flask & MySQL Simulation

- Simulated SQL Injection vulnerabilities to demonstrate insecure authentication risks.
- Implemented Parameterized Queries and session management to secure user data.

DES Cryptography Tool: Java Implementation

- Built a tool using the DES algorithm in ECB mode for secure text encryption.
- Developed a user-friendly GUI for real-time text transformation and Base64 encoding.

DDoS Attack Simulation: Network Stress Analysis

- Created a Java simulation to analyze the impact of HTTP Flood attacks on local servers.
- Documented mitigation strategies including traffic filtering and detection.

Experience

Tmyyoz – Course Instructor for Java Programming

Cyber She – Leader of the Design Department

Skills

- Hard Skills: Risk Management, Cyber Defense, Network Security, Python, Java, SQL, Flask, MySQL, Linux.
- Security Tools: Wireshark, Nmap, Metasploit, Burp Suite, Figma, Canva.
- Soft Skills: Leadership, Technical Mentoring, Presentation, Strategic Thinking.

Languages

- Arabic: Native | English: Upper-Intermediate (STEP Score: 88)
